Keep a lifetime of Christmas memories secure on just one drive

Christmas is one of those special times during the year that have to be captured – the anticipation, the love shared, the little mishap. Whether taking a snapshot of the burned turkey getting buried secretly in the garden or the big eyes when your child is given its presents, Toshiba provides hard drives for any specific need and purpose to safely store these precious moments for years to come.

enjoy form and function. This stylish and attractive aluminium cased hard disk drive delivers up to 3TB storage capacity and comes with an extra soft pouch among several other practical features. Canvio Premium is available for Mac or PCs if you are a mobile or high-end desktop user, it has all the connections and compatibility you'll need.

Also available as Canvio Premium for Mac.

Canvio Advance

Colour your trees with this drive

Available now in snow white and bauble red, the new Canvio Advance brings colour to your gifts under the Christmas tree. With capacities of up to 3TB and useful features, such as the downloadable backup software and security software, the drive is an easy-to-use storage solution for keeping your personal memories safe.

The red and white colours get you into the right Christmas mood.

Level up to top performer

High-capacity of up to 10 TB, topped with speed and reliability will be highly appreciated by the music lover, gamer or graphic designer in your clan. Give your loved one the gift to power up their workstations for high performance AAA gaming!

The perfect gift for gamers.

N300 NAS Hard Drive

Give yourself a gift this Christmas!

Why not use the holiday break to build your home NAS system into a storage power bank with the new Toshiba 10TB N300 NAS drive? Thanks to the Toshiba Stable Platter Technology, increased capacity and a durable design, those drives deliver exceptional performance, high capacity storage and endurance for 24/7 operation. Treat yourself or Techie family members this Christmas!

A safe place for all your files.
